

# HIV PREVENTION CAPACITY BUILDING ASSISTANCE

## How can we partner with you?

If your health care organization is looking to improve or expand your HIV prevention services, we can provide **free** training and TA to support your efforts.

PCDC's trainings are customizable to meet the specific needs of your health care organization and can be delivered in-person or via a web-based platform.

For a detailed list of our trainings, please see reverse page.

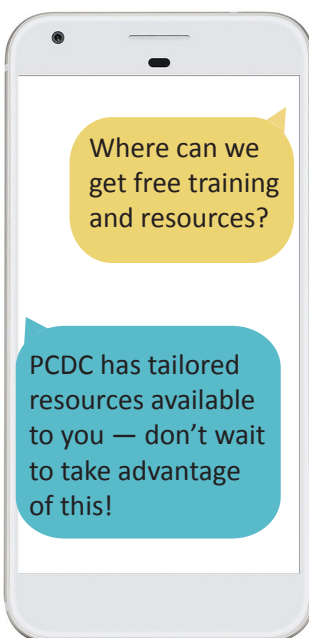

PCDC's team has a depth of knowledge regarding health care operations, clinical services integration and HIV prevention and we use this knowledge to connect our CBA consumers to best practice tools, resources, subject matter experts, and additional learning opportunities.

PCDC provides training on the following CDC-supported effective interventions:

- Anti-Retroviral Treatment and Access to Services (ARTAS)
- Partnership for Health – Safer Sex
- HIV Navigation Services (HNS)
- Sister to Sister (S2S)
- Pharmacy Testing
- Staying Connected

## What Our Consumers Say about Our Services

“Stop looking for general training and hoping your staff get what they need. **Customized training** from PCDC will help you meet your goals.”

## REQUEST FREE CAPACITY BUILDING ASSISTANCE

T: 212-437-3970 | E: [hip@pcdc.org](mailto:hip@pcdc.org) | W: [pcdc.org/hip](http://pcdc.org/hip)

PCDC is funded by the Centers for Disease Control and Prevention (CDC) to provide **free** training and technical assistance to healthcare organizations across the country and is part of the national Capacity Building Provider Network (CPN).
